PPF Banka

USER GUIDE FOR INTERNETBANKING SERVICE OF PPF banka a.s.

Part IV: Accounts, statements and transaction history

Contents:

I. Introduction

For greater clarity, this User Guide is divided into several parts, which are separate documents. This part describes information on accounts, statements and transaction history which are available through IB. Other information related to IB is stated in the other parts of the User Guide.

In the event that there are expressions, abbreviations or phrases beginning with capital letters used in the text of the User Guide, their meaning will be stated in the article titled Definition of Terms of the GBC and/or SBC. The meaning may be specified in the individual provisions of the GBC and/or SBC and/or this User Guide.

II. Current Accounts

List of current accounts to which you have access through the IB will be displayed automatically after logging into the IB. List of current accounts is also availabe in the **Accounts** menu – by clicking on the number of the selected account, you can view the details.

Click **Back** to return from the account detail to the account overview. Use the **Accounted Transactions** and **Today's Turovers** buttons to see transactions on the given account (see point IV.). You can also print out the account details – to use this option click on **Print**.

A new window will open with a print preview – to print the details of the selected account, click on **Print**. After printing, close the window by clicking on the x in the upper right-hand corner.

III. Current account statements

Statements for all accounts connected to IB are available in IB, generated according to the parameters set in the framework agreement or in the current account agreement. In IB, there are available statements from year 2010 or from the date of connection to IB account if the account was connected to IB later. Statements for accounts of the earlier period are not available by default in IB, but you can get them through Customer Service request.

After choosing **Statements,** a filter will appear to enter the statement display parameters – automatically present selection for all accounts for the past month. You can change these parameters. After you enter the criteria to view listings click on the **View** button.
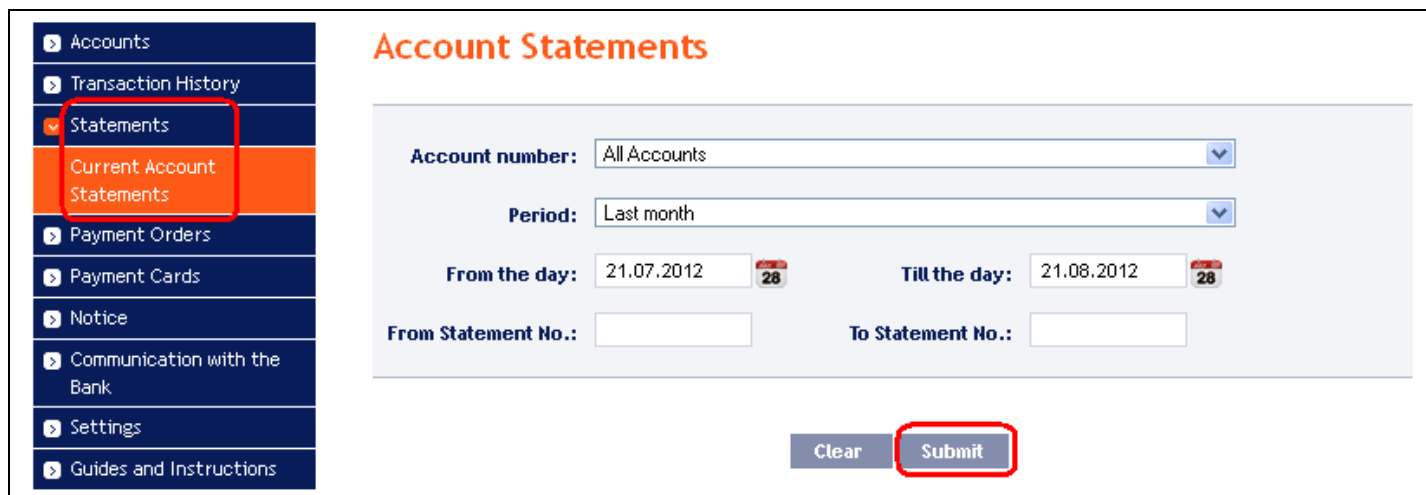

Subsequently, sum up the selection criteria and the list of available statements are displayed – you can open the individual statement by clicking on the PDF icon in the **Action** column.

A separate PDF file with statement opens which you can save or print.

IV. Transaction History

Transactions made on accounts connected in IB made since the date of connection account to IB can be displayed in IB in the option **Transaction History**. When choosing this option, an **Overview of Accounted Transactions** for the past month (30 calendar days) performed on all accounts connected to the IB automatically appears (transactions are ordered by the date of entry regardless of the account on which they were made).

In the option **Transaction History** you can view information on cleared transactions – see point A., today's turnovers – see point B., or the blocking from card transactions – see point C.

A. Overview of cleared transactions and data export

If you wish to see the already clered transactions, click on the option **Settled Transaction List**. A cleared transactions for the past month (30 calendar days) performed on all accounts connected to the IB automatically appears (transactions are ordered by the date of entry regardless of the account on which they were made) – see point IV.

If you require a different view of transactions, click on the **Filter** button in the upper right-hand corner of the screen.

Version 11022013
PPF banka a.s., Praha 6, Evropská 2690/17, Postal Code 160 41 Czech Republic, Company ID No. 47116129, VAT No. CZ47116129
The company is recorded in the Commercial Register at the Municipal Court in Prague, Section B, File 1834

Filter

The system will first summarise the entered criteria for the filter with the exception of criteria **All accounts** and **All payment cards** in the field **Client's account** and criteria **All types** in the field **Transaction Type**. The system does not display these criteria. Then the system will display all the transactions that fulfil the entered criteria. Type of each transaction is listed below the amount:

- **DPO** – domestic incoming and outgoing payments,
- **FPO** – foreign incoming and outgoing payments,
- **CARD** – transaction made by payment card,
- **CASH** – cash transactions,
- **OTR** – other transaction – charges, interests etc.

C.   Card transaction blocking

In the option **Card Transaction Blocking** you can display transactions performed by the payment cards that have not been cleared yet.

A transactions performed on all payment cards automatically appears (transactions are ordered by the date of entry regardless of the payment card on which they were made). If no transaction from payment cards is blocked, the list is empty.

If you require a different view of card transaction blocking (for example for selected payment card only), click on the **Filter** button in the upper right-hand corner of the screen.

To display transactions, simply enter or select at least one of the criteria:

Field	Description
Card number	You can leave all the payment cards or select one of them.
Period	Automatically pre-set for **Last month**. Options: • Yesterday - shows transactions performed on the previous Business Day; • Last week – shows transactions performed in the last calendar week; • Actual month – shows transactions performed in the current calendar month; • Last month – shows transaction performed in the past month (e.g. from 19 April 2012 to 19 May 2012); Choose period – here you can enter a different period for which you wish to display performed transactions; transactions performed in the given period will be displayed.
Date from – to	You can specify the period for which you want to see performed transactions; displays the transactions performed in the specified period.
Amount from - to	Here you can enter the minimal transaction amount (enter only **Amount from**), maximal transaction amount (enter only **Amount To**) or the range of transaction amounts (enter both fields).

You can delete all the entered details by clicking on **Delete** or you can click on **Back** to return to the homepage of the **Card Transaction Blocking**. After entering the required criteria, click on **Display**.

The system will first summarise the entered criteria for the filter with the exception of criteria **All payment cards** in the field **Card number** – the system does not display this criterion. Then the system will display all the transactions that fulfil the entered criteria. These transactions cannot be exported.

Card Transaction Blocking
